Fruits & Veggies recorded the strongest year-over-year sales growth at 36.85%.

Oil & Masala recorded the slowest year-over-year sales growth at 13.01%.

3. Customer Review Analysis

3.1 Review KPI Summary

Metric	Value
Total Reviews	1,646
Average Review Score	4.33
Average Sentiment Score	0.65
Positive Reviews	1,462
Neutral Reviews	36
Negative Reviews	148

3.2 Review Topics

Topic	Count
Other	1,366
Quality	234
Packaging	30
Delivery	20
Price	14
Customer Service	6
Usability	6

Topic	Count
Availability	4

3.3 Review Summary by Category

Category	Avg Score	Sentiment	Total Reviews	Dominant Topic
bakery	4.44	0.70	198	Other
beverages	4.27	0.66	1,046	Other
eggs meat and fish	3.48	0.49	42	Other
food grains	5.00	0.83	8	Other
fruits and veggies	4.18	0.63	44	Other
oil and masala	4.50	0.70	220	Other
snacks	4.70	0.66	88	Other

3.4 Review Insights

Customer reviews totaled 1,646 in 2018.

The weighted average review score was 4.33, with an average sentiment score of 0.65.

The most discussed topic was Other.

4. Business Insight and Recommendation

This section is based on the latest 3 months of available data: 2018-10, 2018-11, 2018-12.

Using a recent multi-month window gives a more balanced picture than using one month only.

Category	Sales Performance	Review Sentiment	Business Insight	Suggested Action
bakery	High	Strong	Strong recent performance with healthy customer response in the recent period.	For bakery in 2018-12 (Winter), customer response was relatively positive, so stronger promotion, better visibility, or targeted campaigns may help improve sales.
beverages	High	Weak	Sales remain relatively strong, but customer sentiment is weaker and may affect future performance.	For beverages in 2018-12 (Winter), review customer feedback, investigate possible quality or service issues, and monitor whether weak sentiment affects future sales.
eggs meat and fish	Low	Weak	Sales and customer sentiment are both weak relative to recent benchmark.	For eggs meat and fish in 2018-12 (Winter), review customer feedback, investigate possible quality or service issues, and monitor whether weak sentiment affects future sales.
food grains	High	Strong	Strong recent performance with healthy customer response in the recent period.	For food grains in 2018-10 (Fall), maintain current strategy, protect product availability, and consider stronger promotion during similar seasonal periods.
fruits and veggies	High	Weak	Sales remain relatively strong, but customer sentiment is weaker and may affect future performance.	For fruits and veggies in 2018-11 (Fall), review both commercial performance and customer feedback carefully before increasing investment or expanding activity.

Category	Sales Performance	Review Sentiment	Business Insight	Suggested Action
oil and masala	Moderate	Strong	Customer sentiment is relatively positive, but sales are below recent benchmark and may offer growth potential.	For oil and masala in 2018-12 (Winter), customer response was relatively positive, so stronger promotion, better visibility, or targeted campaigns may help improve sales.
snacks	High	Strong	Strong recent performance with healthy customer response in the recent period.	For snacks in 2018-12 (Winter), maintain current strategy, protect product availability, and consider stronger promotion during similar seasonal periods.

5. Forecast Outlook
